

Request for Expressions of Interest

E24-OP179 CLIMATE CHANGE STUDY

Emera Newfoundland & Labrador operates the Maritime Link, a 500 MW +/- 200kV HVDC overland and subsea transmission link between the island of Newfoundland and Nova Scotia.

We are seeking from qualified companies an expression of interest in conducting a desktop Climate Change Study focused on providing climate modelling and related data for the Maritime Link's geographical areas. The activities will include utilizing the Intergovernmental Panel on Climate Change's Representative Concentration Pathways (RCP) and other available climate modelling information to assess potential future climatic conditions for consideration.

Companies interested in this expression of interest are asked to return a completed copy of our EOI questionnaire by **2 p.m. NDT on October 4, 2024**. To request a copy of the questionnaire, please email a request to ENLprocurement@emera.com.

Emera Newfoundland & Labrador is committed to conducting business in a manner that ensures the health and safety of all people on our worksites, is respectful of the environment, and promotes diversity and inclusion.
